EFW Supports the Entire Lifecycle of Your Aircraft

ESG Do you know, what ESG stands for?

Extended **S**ervice **G**oal

&

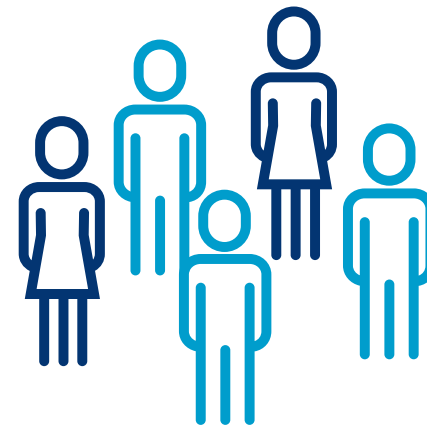

Environment **S**ocial **G**overnance

ESG Sustainability at the heart of everything we do

Environment

We are committed to support the decarbonisation journey and to reduce our environmental footprint.

Social

We are committed to making EFW a safe, attractive, and fair place to work. We engage and involve ourselves for the community.

Governance

We conduct our business with integrity and are committed to be an open and transparent company.

ESG Our ESG highlights

EFW cares about its environmental, social and governance responsibilities.

- **100%** renewable energy powering our Dresden facility
- **2,500** trees are aimed to be planted reflecting freight tonnage converted at EFW
- **50%** of carbon footprint reduced in 2023 by implementing green electricity
- **ISO 14001** - We work strictly in line within certified environmental management system
- **10** - We affirm the support of the 10 United Nations Global compact (UNGC) principles
- **17** - We affirm the support of the 17 sustainable development goals (SDGs)
- **GOOD** - Our 2023 sustainability performance has been rated by EcoVadis, the worldwide active sustainability rating agency

ESG

Did you know?

We @EFW plant one tree for every freight tonnage converted by EFW and will plant up to 2,500 trees per year.

ESG

Did you know?

We @EFW have cut
our CO₂ emissions by half
in 2023.

ESG

Did you know?

We @EFW manufacture our products using **100%** renewable electricity and utilize solar energy and energy from biogas.

ESG

Did you know?

We return captured rainwater to the natural water cycle as groundwater.

EFWeAreTeam!

Thank you!
